**BREEDING AGREEMENT and CONDITIONS FOR BREEDING BY ARTIFICIAL  
INSEMINATION, USING TRANSPORTED, CHILLED SEMEN**

**226 FAVORY NAUSSICA**

Season 2011

***Please read these conditions carefully, as they are most important.***

(1) FEES: Service Fee: \$A 1,400.00 includes the first Collection Fee of \$350 (includes GST), paid in advance of any semen collection taking place. Subsequent collections require additional payment in advance of \$300.00 per collection.

(2) BOOKING: Please make your booking on the form provided overleaf, and forward it to Georgina Beard

(3) NOTIFICATION: ***It is imperative*** that your Vet advises Georgina Beard *prior to or on the day of injecting this mare with prostoglandin, with the intention of requesting semen in that cycle.* If not giving prostoglandin, please advise absolutely as soon as you can, but **no less than** two full days prior to the projected day of ovulation. *If this is not done, we may be unable to get the semen to you that cycle.*

(4) 'NO FOAL, FREE RETURN' clause: If the mare slips, or if the foal does not survive 36 hours (Vet Certificate required), the mare may be returned for service the same or following season ON CONDITION THAT a Collection Fee of \$350 is paid again, *in advance of the semen being collected. No payment, no semen.*

All collection and transportation costs for the semen, plus its insurance, insemination costs, Veterinary, medical, keep and agistment costs are payable by the purchaser of the chilled semen. It is up to you to encourage your Veterinarian to keep costs down.

(5) MARES:

We wish to assist you in producing a foal with top class performance potential. Mares with poor conformation or known hereditary diseases or bad performances should not be bred. The Stud reserves the right to refuse to provide semen to a mare at any time, in which case no further collection fee will be charged.

(6) VETERINARY ATTENTION:

If the mare is deemed unsuitable for breeding, an alternative mare may be substituted. Veterinary certificate required.

(7) LIABILITY: Should the stallion 226 Favory Naussica no longer be available, the stud fee *only* (dating from time of original stud contract) will be refunded.

(8) All transport costs for the mare and semen are at the expense of the mare's owner/lessee.

(9) The Stud Season runs from August 1 2011, and any request for semen in that season must reach the Stud before January 31 2012, to enable us to accommodate your requirements.

(10) Once the first request for semen has been made, the stud fee is not refundable under any circumstances.
